Completeness and appearance of the product and accompanying materials are not covered by the warranty. Please inspect and raise objections on the spot when receiving the product.

FCV Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

However, if the modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to other licensed devices. This device generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to other licensed devices. It is your responsibility to guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, you can determine the source by turning the equipment off and on; the user is encouraged by to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. This device can be used in portable operation conditions without restriction.
