INSTRUCTIONS FOR USE

EN 1, Connect the wireless charger to the power adapter and turn on the wireless charger. (It is recommended to use a power adapter with a power of 18W or above to ensure a fast wireless charging experience)
2, Place your device horizontally on the center of the wireless charger until the device starts charging.

DE 1, Das Kabellos-Ladegerät an das Netzteil anschließen und einschalten. (Für ein schnelles kabelloses Aufladen wird ein Netzteil mit einer Leistung von 18W oder mehr empfohlen.)
2, Das zu ladende Gerät waagerecht in die Mitte des Kabellos-Ladegeräts stellen, bis es zu laden beginnt.

FR 1, Connectez le chargeur sans fil à un adaptateur secteur, puis mettez-le sous tension. (Utilisez de préférence un adaptateur de 18W ou plus pour une charge rapide optimale.)
2, Placez votre appareil à l'horizontale au centre du chargeur sans fil jusqu'à ce que la charge commence.

IT 1, Collega il caricabatterie wireless all'adattatore di alimentazione e accendilo. (Si consiglia di utilizzare un adattatore di alimentazione con una potenza di almeno 18W per garantire una ricarica wireless rapida.)
2, Posiziona il dispositivo orizzontalmente al centro del caricabatterie wireless finché non inizia a caricarsi.

ES 1, Conecte el cargador inalámbrico al adaptador de corriente y encienda el cargador inalámbrico. (Se recomienda utilizar un adaptador de corriente con una potencia de 18W o superior para garantizar una experiencia de carga inalámbrica rápida)
2, Coloque su dispositivo horizontalmente en el centro del cargador inalámbrico hasta que el dispositivo comience a cargarse.

PT 1, Conecte o carregador sem fio ao adaptador de energia e ligue o carregador sem fio. (Recomenda-se usar um adaptador de energia com potência de 18W ou superior para garantir uma experiência de carregamento sem fio rápida)
2, Coloque o dispositivo horizontalmente no centro do carregador sem fio até que o dispositivo comece a carregar.

RU 1, Подключите беспроводное зарядное устройство к сетевому адаптеру и включите питание (рекомендуется использовать адаптер питания мощностью 18 Вт и выше для обеспечения быстрой беспроводной зарядки).
2, Разместите телефон о по центру зарядного устройства в горизонтальном положении — зарядка начнется автоматически.

PRECAUTIONS

1, Before using this product, please read the instruction manual in detail and familiarize yourself with its usage to avoid risks.

2, When using this product near children, please pay close attention to the usage.

3, Please use the product in a ventilated and dry environment, away from water or other liquids.

4, When the product is not in use, please unplug the power adapter from the socket.

5, It is prohibited to disassemble, modify and repair this product without authorization, If you encounter any problems, please contact after-sales service.

6, It is recommended that the ambient temperature is -5℃~45℃, Please do not drop or knock this product hard to avoid damage and danger.

7, Do not put magnetic and metal accessories or cards on the charger.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
