

88*88MM Double-Sided Printing

Children AI Study Travel Machine

Direction for use

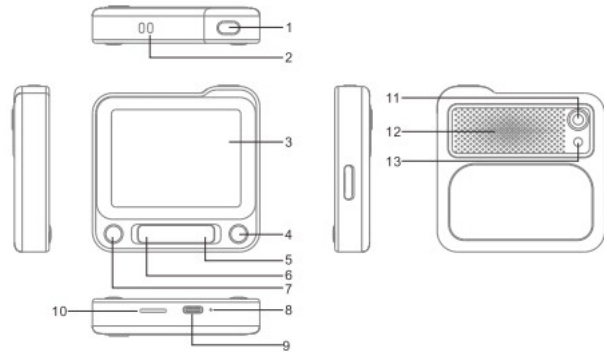

Please read the instruction manual carefully and keep it properly before use to ensure quick and correct installation and operation.

1. In accordance with the principle of continuous improvement, the Company reserves the right to modify or enhance any product information or features described in the documents without prior notice.

2. Due to continuous product improvements and updates, actual operations may differ slightly from descriptions. Please refer to the actual operations.

3. The product images shown in this manual are for illustrative purposes only. Please refer to the actual product for details.

1. Appearance and Function Description

- 1-Photo button
- 2-Hanging rope hole
- 3-Touchscreen
- 4-Power button
- 5 Volume Up
- 6-Vol. Down
- 7-AI bond
- 8-MIC
- 10-TF card slot
- 11-Camera
- 12-Louver hole
- 13-Flashlight
- Type-C charging port

Power button:Long press to power on the device; Short press on other interfaces to return to the main interface.

Photo button:1) Press this button to enter the shooting interface;

2) Click this button to take a photo.

AI key:One key to enter AI question and answer.

Device charging

This product includes 1 charging cable and does not include a power adapter. Use an adapter with an output power of 5V=1A for charging.

Some high-power power adapters and computer USB ports may not be able to charge devices.

Safety Notice

Due to potential interference of network signals from this product with electronic or medical devices, do not use this product in the following scenarios:

- Hospitals, areas surrounding individuals with cardiac pacemakers, and other medical devices. Explosive-prone areas such as gas stations (environments containing flammable gases, dust, metal powders, and granular powders).
- On the aircraft (and near other electronic devices susceptible to interference).

Do not perform the following unauthorized operations on this product, as they may cause equipment failure or even personal injury.

- Do not apply voltage beyond the specified range to this product's power supply.
- Do not attempt to disassemble or modify this product. Disassembly may cause permanent damage and pose a risk of injury to users.
- Do not immerse this product in water.
- Do not place this product in direct sunlight or near heaters such as sunlight, fire, microwave ovens, or ovens, as this may cause explosion or leakage of flammable liquids or gases.

Product Parameter	
Product model	13
Display screen	2.83-inch 480*640 incell HD display
Storage memory	2GB+16GB
WiFi	2. 4G
Suona	4 Ω 2W
USB	Type-C 5V=1A
Camera	Rear 500MP
PDA	4. 2
Cell	Battery capacity: 1400 mAh
	Charging time: 2H
	Standby time: 5 days

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1)This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
