

Product Overview

Important Reminder:
Before installing the headset, please connect your mobile phone according to the quick manual guide to test the sound effect and volume.
If there is a big difference in sound effect and volume after installing into the helmet, please adjust the position of the speaker inside the helmet.

Power on/off

Wireless connection

Intercom pairing

After the machine is turned on, the two devices short press the intercom button to enter the intercom mode and pair the intercom. The intercom green LED light flashes rapidly, accompanied by an audible prompt saying "Intercom pairing." Once pairing is successful, an audible prompt will indicate "Intercom connection," at which point the two parties can begin intercom communication. Press the button again briefly to exit intercom mode.

Telephone function

Music function

Social matching (connecting third parties)

Voice assistant

Lighting switch

Turn lights on/off

Charging function

Intercom reset

Wireless Intercom Connection Operation Overview (Intercom is disabled by default at startup)
I. Intercom Reconnection.
Devices that have been previously connected will enter intercom mode by short pressing the "Intercom Button" after powering on, and the two devices will automatically reconnect to each other.
II. Clear wireless pairing and restore factory settings.
Clear wireless pairing information: Turn on the device without connecting to wireless or walkie-talkie, then press and hold the volume down and volume up buttons simultaneously for 5 seconds to clear the wireless pairing information. The indicator light will flash rapidly.
III. Phone Priority.
After powering on, the device connects to wireless. Regardless of the mode it is in, when the device receives or makes a call, it will automatically enter phone mode. After hanging up, it will return to the corresponding mode.
IV. Does not support the "one-to-two" function.

Product List

Caveat

1. To avoid explosion, please do not put the product into the flame;
2. Please do not disassemble the product to avoid damage to the electronic components of the product;

Instruction warning

NOTE: This product has been tested, meet the restrictions of Class B digital device, pursuant to part 15 of the FCC Rules. This equipment is designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.
-Reorient or relocate the receiving antenna.
-Increase the separation between the device and receiver.
-Connect the device into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the device.
This device complies with Part 15 of the FCC Rules. The operation needs to fulfill the following two conditions.
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
