Infinity 5-in-1 48 Charging Cable with Watch Charger

User Guide

EAC-IN25

Tech Specifications

- USB A / USB C Input: 5V/2A
- USB C Output: 5V/2A
- Lightning Output: 5V/2A
- Output for Smartwatch: 2W

What's included

- 1x Multi-charging Cable for Smartwatch
- 1x User Guide

Safety Precautions

Not a Toy: This product is not a toy. Keep it away from children and pets.

Proper Use: Only use the device as described in this manual. Never use it for any purpose other than its intended function.

No User Serviceable Parts: Do not open or attempt to repair the device yourself if it's not working; this could lead to fire, shock, or injury.

Storage: When not in use, store the device in a dry, cool place, away from water and heat sources.

Environmental Conditions: Avoid exposing the device or charging cable to extreme temperatures, open flames, or humid/wet conditions.

Water Exposure: Do not submerge the device in water. Avoid using it where it or the charging cable could fall into liquid.

Handling the Cable: Unplug the charging cable when not in use. Never pull the cable to disconnect it or use it as a handle.

Damage Inspection: Do not use the device if it or the charging cable is damaged. Damaged items must be serviced or replaced by the manufacturer or a service agent before further use.

How to Use This Product

Ensure that your smartwatch supports wireless charging

Plug the USB-A or Type-C tip of the wireless charger into power source.

Place a wireless charging enabled smartwatch on the wireless charging surface, the smartwatch will begin to charge automatically.

Remove your smartwatch from the wireless charging surface when it is fully charged.

FCC Warning Statement

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
