Regal 10000mAh 20W PD Power Bank w/ Wireless & Watch Chgr

Instructions

50 mm

Product Diagram

Product Parameter

Product Name: Regal 10000mAh 20W PD Power Bank w/ Wireless & Watch Chgr
Item ID: EPB-RG25 Battery Type: Lithium Polymer
Battery capacity: 10000mAh Rated capacity: 5300mAh
Energy conversion efficiency: ≥60% Total power: 38.5Wh
Input: Type-C: 5V-2.6A/9V-2A/12V-1.5A iPh: 5V-2A/9V-2A
Total output: 5V-3A Output: Type-C: 5V-2.4A/9V-2.2A/12V-1.67A
Magnetic Wireless Charging: 2W/5W/7.5W/10W/15W
Bare product size: 108.5*70.8*20.8mm Bare product weight: 205g
Material: ABS+metal holder

Battery Inquiry

Press the power button to check the current battery level.

Charging the power bank

When this product gets charged, the numbers will flash to indicate the current battery level. As the voltage rises from low to high, the displayed values will increase gradually and when fully charged, it will show 100.

Charging other devices through the power bank

When charging mobile devices through the USB port, the current battery level will be continuously displayed. If it shows 0%, it indicates low battery, and the power bank needs to be charged.

Scope of application and recharging methods

1. Product use: Through a USB charging cable, you can charge up other devices with the power bank to lengthen their battery life.

Smart
Phone

Digital
Camera

Tablets

Handheld
Game Console

2. Recharge the power bank: When the power bank is of low power level, charge it through a PC interface, AC adapter or car charger with a Type-C USB charging cable.

FCC Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
