1、Operating manual

Startup & Shutdown

Power on: In the shutdown state, hold down the "Power" button for 2 seconds, you will hear the "power on" tone, and the machine will enter the standby mode

Shutdown: In the startup state, long press the "power" key for 2 seconds, you will hear the machine "beep", the machine into the shutdown state。

2、Volume setting

If the current volume is set to 5, you will hear the volume 5 prompt tone. When the volume is set to 5, the red light blinks twice. Press + or - to increase or decrease the volume. In the volume setting state, if no key operation is performed within 5 seconds, you will hear a beep and return to the idle state.

3、Channel setting

In the unlocked state, hold down the + or - key and you will hear a channel announcement. For example, if the channel you are working on is channel 2, you will hear a channel announcement of 2. Press + or - to switch channels.

4、Key lock setting

Manually lock: In the standby state, press and hold down the P key for 2 seconds, you will hear a key tone of the lock key. In this case, all keys and functions except the on-off function and PTT function are locked

Automatic lock: If the device does not operate for about 30 seconds, the key will be automatically locked (optional)

Unlock: When the machine is locked, press and hold the P key for 2 seconds, you will hear the unlock prompt key, and the lock key function will be removed.

5、Channel prompt function

Press the P key to prompt the current number of channels

6、Disable sending when busy (optional)

This function can be set in the professional writing frequency software, the channel can not be launched when the channel is occupied after the setting, to prevent two machines from launching at the same time, causing mutual interference, suitable for large occasions with high frequency.

After enabling this function, the headset can speak with a "beep" sound. If you hear two "beep - beep" sounds, the channel is occupied and will be discussed later.

7、One key to frequency function

(1) If you need to use with other brands of walkie-talkies, you can use this feature to pair:

(2) In the off state, press and hold the helmet P key, and then press the power key to start the helmet until the blue light flashes, you will hear the machine prompt "scan", and then release the key。

(3) Another walkie-talkie that needs to be paired, long press and hold the PTT key (talk key) to launch.

(4) If the green light is on, the pairing is successful.

(5) Press the power button to exit the frequency state and return to normal mode.

Battery information:

■ Charging precautions

Charge new or long-unused rechargeable batteries before use. When the battery power is found to be low, the red light of the intercom T/R flashes, and the "please charge" prompt sound is issued in the headset, the emission is prohibited, and the battery must be charged at this time.

When charging, the CHG's red light is on. If fully charged, CHG blue light.

注意:

■ It is recommended to use the original charger, you can also use the regular brand mobile phone charger on the market. If the use of inferior charging to the machine charger damage to the machine, the company is exempt from liability

■ The battery assembled on the walkie-talkie can be charged, it is recommended that a full, so as not to reduce the battery performance.

Technical specifications

The whole body is divided

Number of channels	25 (Factory default is 25 channels)
Operating temperature range	— 20%°dC ~ 60%°dC
Nominal voltage	DC 7.4V
Battery capacity	1520 mAh
Channel spacing	12.5 K
Boundary dimension	285mmx265mmx151mm(L x W x H)
Weight	678g
Antenna impedance	50 Ω

Common troubleshooting:

Aalfunction	Exclude
Can not turn on...	Battery is low, need to charge before use.
Cannot send a signal	Verify that the PTT talk button is fully pressed or the battery is low when sending, limiting the launch.
Cannot receive	Check whether the channel Settings and mute code Settings on both sides are the same. Verify that the PTT talk button on the headset is fully released when receiving. Obstructions, indoor or car use may interfere with the call, please change your location.
I heard something else on the line (Call or noise)	External interference is too large, the selected channel may be in use, choose another channel.
Limited range	Buildings, trees, etc., narrow the call range, check whether the line of sight is open, please change your location. Walkie-talkies carried on the body, such as pockets or waist will reduce the range of calls, please change the location of the walkie-talkies.

Warranty card

Dear customer, thank you for buying our products. For the better

Your service, after purchasing the product, please read carefully, fill in and keep it properly

Good for this warranty card.

Customer name			Linkman, contacts
