

Cover Letter-Modular Approval

FCC ID: 2AA72-DTR6818

Data: Nov. 24,2015

Gentlemen:

There's an Bluetooth 4.0 module that would like to have your authorization as a modular approval. The specific product as below, Bluetooth 4.0 module with its designed features and specified description, meets special requirements for Full modular approval on FCC KDB996369 by cross-reference list below.

Company	申请方名称
Model Name	Bluetooth 4.0 module
Model Number	DTR6818
FCC ID	2AA72-DTR6818

Requirement of FCC KDB996369	Comply (Y/N) (如产品符合左侧要求填Y, 不符合填N)
1. The modular transmitter must have its own RF shielding.	Y The EUT provides the RF shielding. See EUT photo.
2. The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with Part 15 requirements under conditions of excessive data rates or over-modulation.	Y, please see the below: The Radio implements EasyDMA in combination with an automated packet assembler and packet disassemble, and an automated CRC generator and CRC checker, makes it very easy to configure and use the RADIO.  The nRF51 series ultra-low power 2.4GHz GFSK RF transceiver is designed and optimized to operate in the worldwide ISM frequency band at 2,400GHz to 2.482GHz, configurable radio modulation modes and packet structure makes the transceiver interoperable with Bluetooth low energy(BLE) Enhanced shockburst, and a range of other 2.4GHz protocol

“Contains FCC ID: 2AA72-DTR6818” Any similar wording that expresses the same meaning may be used. The Grantee may either provide such a label, an example of which must be included in the application for equipment authorization, or, must provide adequate instructions along with the module which explain this requirement. In the latter case, a copy of these instructions must be included in the application for equipment authorization.	
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	Y The EUT is compliant with all applicable FCC rules. Details instructions for maintaining compliance are give in the User Manual.
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	Y The EUT complies with RF exposure requirement.

Thank you.
Sincerely,

By:
