Karlsruhe, 25. October 2018

Subject: Class 2 Permissive Change (C2PC) Request

FCC ID: **2AA98-DBMFA2C5**

To whom it may concern

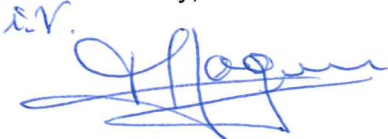

In accordance with KDB 178919 D01 and FCC rule part §2.1043: Changes in Certified Equipment, **Visteon Electronics Germany GmbH** hereby requests a class 2 permissive change to FCC ID: **2AA98-DBMFA2C5** as detailed below:

The WLAN/ BT chip contained in the device as originally certified contained BT LE (Bluetooth Low Energy) capability which was disabled. This C2PC is for a SW update to activate the BT LE functionality in the chip. The hardware is unchanged as originally certified.

New SW version 913.1.3 has activated the BT LE functionality within the MFA2

As a result of the change detailed above, full testing of the BT LE functionality is carried out on FCC ID: **2AA98-DBMFA2C5** to show compliance with FCC rule part 15.247 and 15.209

Yours faithfully,

Jean-Michel Bergmann
Director CRE Germany
