Baltimore, MD 21230

RE: CONFIDENTIALITY REQUEST FOR: OE30, OE31, OE35 and FCC ID: 2AAA2-OE3C

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the Schematics, Block Diagram, Operational Descriptions, and Parts List/Tune-up Info required to be submitted with this application be permanently withheld from public review.

The reason for the request is that the above documents contain sensitive information about our products. If they were released on the FCC website, our competitors could reverse engineer our products quicker, and gain a competitive advantage.

Please contact me if there is any information you may need.

Sincerely,

Julian Lamb
President
