

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'View 2'. The board is rectangular with a complex layout of electronic components, including several integrated circuits, capacitors, and resistors. A prominent black chip in the center is labeled 'Rockchip'. The board is placed on a blue textured surface. A metal ruler is positioned horizontally below the board, showing measurements in centimeters (1 to 20) and millimeters (0.5 mm). Another ruler is placed vertically to the left of the board, showing measurements in centimeters (1 to 16) and millimeters (0.5 mm).
Solder Board-Component View 3	 A photograph of the same green PCB component, labeled 'View 3', showing the reverse side. The board features a large central area with a dense pattern of solder pads and some surface components. A small black component is visible on the right side. The board is placed on a blue textured surface. A metal ruler is positioned horizontally below the board, showing measurements in centimeters (1 to 20) and millimeters (0.5 mm). Another ruler is placed vertically to the left of the board, showing measurements in centimeters (1 to 18) and millimeters (0.5 mm).

Solder Board-Component View 4	 A photograph of a small electronic component, likely a solder board, placed on a blue textured surface. The component is rectangular with a gold-colored flex cable attached to one end. It features three circular solder pads and some printed text including "D156 KEY-FC-V02", "PM2", "VAL", and "101". Two metal rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows the component is approximately 4 cm high, and the horizontal ruler shows it is about 5 cm wide.
Solder Board-Component View 5	 A photograph of the same electronic component from a different angle, showing its underside. The component is rectangular with a gold-colored flex cable attached to one end. It features three circular solder pads and some printed text including "D156 KEY-FC-V02", "PM2", "VAL", and "101". Two metal rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows the component is approximately 4 cm high, and the horizontal ruler shows it is about 5 cm wide.
