Care & Safety

To clean, wipe down with a soft dry cloth. Do not use with cleaning agents or other chemical solutions.

This unit is NOT waterproof. Do not expose to water, moisture, extreme heat or high levels of humidity.

Keep away from flammable objects and excessive heat. Do not disassemble or modify the charging unit. Doing so may cause permanent damage to the unit.

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experience radio/TV technician for help

This device has been evaluated to meet general RF exposure requirement. To maintain compliance with RSS102 - Radio Frequence (RF) Exposure guidelines, this equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body: Use only the supplied antenna.

FCC ID: 2AAC4CQ050773
