Dear Sir/Madam,

We, i.safe MOBILE GmbH hereby declare that we have products (FCC ID:2AACZ-IS9101) named as Intrinsically safe tablet PC (model: IS910.1) and named as Rugged Tablet Computer (Model: RG910) were tested by BACL, they are electrically identical, they have different product name, model number, USB cable, charging cable, adapter, battery, appearance color, and the two models' BOM also have some differences, IS910.1's BOM has some explosion-proof components, the detail information for explosion-proof components, please check the two models' BOM, no other changes are made to them. The differences also simply indicated on the following table:

Model	Internal Difference Description	Difference Picture Show			
		USB cable	Charging Cable	Appearance,Adapter	Color
IS910.1	Explosion-proof version: Explosion-proof components(there are extra diodes ,protective tubes, resistances showed on BOM form), and Explosion-proof battery				Orange
RG910	Non-explosion-proof components and non-explosion-proof battery				Yellow

We confirm that all information above is true, and we'll be responsible for all the consequences. Please contact me if you have any question.

Sincerely Yours,

Signature

Martin haaf
