

31*23mm

The image shows the back of a black plastic electronic device. It has a rectangular battery compartment in the upper center, marked with a crossed-out battery symbol. Below the compartment is a small rectangular slot. The device has four circular mounting holes, one in each corner. Two screws are visible: one in the center of the bottom edge and one to the right of the battery compartment. A small, illegible logo is embossed on the right side. A white label with black text is on the left side, containing FCC ID and compliance information.

FCC ID: 2AAFASY-C57012W-08
This device complies with Part 15 of
the FCC Rules. Operation is subject
to the following two conditions: (1)
this device may not cause harmful
interference, and (2) this device must
accept any interference received,
including interference that may cause
undesired operation.
