Paired with an iPhone mobile, it will have battery power indication.
- INCLUDES**
1. Over the head Bluetooth headset
 2. USB charging cable
 3. Line-in cable
 4. User manual

SPECIFICATIONS:
Model: BM-1022
Driver unit: 40mm
Impedance: 32 Ω
Version: Bluetooth V4.2
Microphone sensitivity: -42dB
Headset Sensitivity: 97dB $\pm$ 3dB
Driver unit Frequency: 20Hz-20KHz
Frequency Response: 20Hz-20KHz
Radio Frequency coverage: 2.402GHz-2.480GHz
Transmit Range: about 10m (barrier free)
Status Indication: LED light
Battery: Rechargeable lithium-ion battery; 3.7V, 500mAh
Bluetooth protocol: HFP, A2DP, AVRCP
Charge: Micro-USB
Charging time: within 2.5 hours
Operate hours: up to 15 hours
Standby time: up to 200 hours

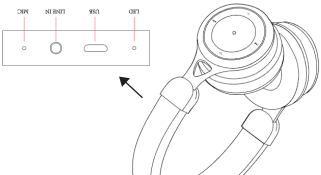

Dear User
Thank you for choosing our product. Your choice is crucial for us, which means we have added a new product line for you. We hope that we will bring you a good experience through our products and services. Also, we hope you will put forward the good advice and suggestions by official customer hotline and Wechat in the process of product experience, which can help us to constantly improve product and service.

If you encounter any problems in the using product, please refer to service process. Your support is our strongest power, also your recognition and evaluation are a great encouragement to us.

Thank you!

- CHARGING**
LINE IN: 3.5mm line-in port
MIC: microphone
LED: red and blue b-color status indicator lights
- The Bluetooth headset has a built-in rechargeable battery. Please charge for at least 4 hours before using the first time to have enough battery power. Hereafter, charging will take about 2 to 3 hours. While it is charging, the red light is on; when it has finished the red light will turn off.
- PAIRING THE HEADSET WITH A BLUETOOTH DEVICE**
The Bluetooth headset must be paired with your mobile phone (or other Bluetooth devices) before use.
1. When the headset is turned OFF, please press the key " ϕ " for about 3 seconds, stopping the key until the red and blue lights are flashing alternately, the headset will make a "bi, bi" sound and at this time the headset will enter pairing mode.
 2. Search for the Bluetooth device called "BM-1022" on the device list and select. It will automatically pair and connect with mobile phone.
 3. When the pairing connection is successful, the headset will make a "de" sound and the blue light shall flash slowly, the blue light is on once about 2.5 seconds.

REMARKS:

1. Power headset ON/OFF (reconnect with paired Bluetooth device) and then use the mobile phone to search again. To search the headset, please set the headset to pairing state, your mobile phone or other Bluetooth device will not be able to connect. If the Bluetooth headset is not in the pairing state, it will automatically shut down. It cannot find the paired device in pairing process, please place "0000". The headset will inputting a password. Some mobile phones require pairing process.
- POWER HEADSET ON/OFF AND RECONNECT WITH PAIRED BLUETOOTH DEVICE**
When the headset is turned on, the headset will quickly flash (which flashes twice every second). The headset enters automatic connection with paired device; if the headset is connected with the paired Bluetooth device, connection is successful, the blue light will flash slowly (once every 2.5 seconds).
- reconnection can only occur with devices that have been paired previously. The headset will automatically shut down if it cannot be connected with the paired device in 3 minutes.

- BLUETOOTH WIRELESS CALL**
When the Bluetooth headset is paired and connected with your mobile phone, you can use the headset to answer calls or listen to music.
- Dial-out, answer and hang up calls
 - Outgoing Calls
1. Dial-out by mobile phone: use your mobile phone to dial as usual. The headset will make a ringing tone and the voice will be automatically switched to the Bluetooth headset after putting through (some smart phones need to have a last dialed number/some mobile phones may only need to short press the key once).
2. Last number redial: double-click the key once to dial out the last dialed number/some mobile phones may only need to short press the key once).

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
