

FCC Class II Permissive Change Request Letter

May 10, 2017

Federal Communications Commission
445 12th Street SW
Washington, DC 20554

**RE: FCC Permissive II Change Request for Qolsys Inc.
FCC ID # 2AAJXQS-IQPANEL2**

Dear Sir or Madam:

We, Qolsys Inc., received an original Grant of Equipment Authorization for the above-referenced equipment on November 18th, 2016, a copy of which is attached as Exhibit A. Pursuant to 47 CFR 2.1043(b)(3), we respectfully request you grant a Permissive Change to allow UMTS modulation for communication on bands FDD II, FDD IV, FDD V. The hardware, enclosure, all other components are identical as certified and the output power rating remains the same. Schematics, block diagram, BOM, tune-up procedure, user manual are the same.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'M Skeen', is written over a faint, light blue circular background.

Mark Skeen
VP Life Safety & Compliance
Qolsys Inc.

Power output is conducted at the antenna terminal. This device is to be used only for mobile and fixed applications. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with FCC multi-transmitter product procedures or as shown in this filing. Under no conditions may an antenna gain be used that would exceed the ERP and/or EIRP power limits as specified in Part 22, 24 and 27. Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

This device supports LTE of 5, 10, 15, and 20 MHz bandwidth modes for LTE Band 2 and Band 4, and LTE of 5, 10 MHz bandwidth modes for LTE Bands 5, 12/17, 13.

BC: The output power is continuously variable from the value listed in this entry to 5%-10% of the value listed.
