

<u>INTERNAL PHOTOS</u>	
Company Name	Georgia-Pacific Consumer Products LP
FCC ID #	2AALY-528GP
IC #	21620-528GP

Georgia-Pacific Consumer Products does not have internal photos of the WiFi radio, as the radio is manufactured using a SIP (System In Package) process. This process results in the final radio being encapsulated in the packaging material during time of manufacture. Based on this we are unable to provide pictures of the module without the cover.

BLE Radio (internal)
