User's Manual Newtral 2 Mouse Wireless

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IV:FAQ&SUPPORT

Q:Mouse not detected

A:Make sure the Wireless receiver is plugged into the correct port. Make sure to reboot your computer after you install the mouse driver.

Q:You have trouble with precise positioning

A:Using small flange for maximum precision.

Q:The cursor moves too slow or too fast

A:Adjust the DPI button located after the scrolling wheel to find the right speed for you.

Q:The cursor doesn't move after some time without usage

A:The wireless version will sleep after a few minutes without usage to save battery power. Just click any button to wake it up.

Q:Cursor moving by itself

A:A reflective surface may cause cursor drift. Put the Newtral 2 Mouse on a non-reflective mouse pad.

Q:There is no red light from the sensor located at the bottom as other optical mice

A:There is no red light coming out from the Newtral2 Ergonomic Optical Mouse. The new technology helps reduce light pollution.

V:WARRANTY INFORMATION

Microtouch Technology Inc offers a two-year warranty on the Newtral 2 Mouse.

This Warranty is applicable to the initial purchaser only and is non-transferable.

We warrants that at the time of customer's receipt, the product will be in good working order and will be free from defects in material and workmanship.

This Warranty does not apply to normal wear and tear or damage caused by accident, neglect, misuse or improper installation or operation.

We will not be responsible for damage due to service, maintenance, modifications or tampering by anyone other than our authorized representative.

Within the Warranty period, we will either repair or replace the defective product.

This Warranty does not cover damage caused by a carrier or transportation of the product from one location to another, or alterations made by owner.
