Quick start guide

Philips wireless Bluetooth in-ear headphones SHB5800

Charge the battery

- Plug one end of USB cable into the charger (or into the USB port of a computer).
- Plug the other end of the cable into the micro USB charging slot on the headset.
- When the headset is charging, a white indicator light will be displayed.
- When the headset is fully charged, the white light goes off.

Turn on and off the headset

- Turn the headset on. Press and hold  for 2 sec.
- Turn the headset off. Press and hold  for 4 sec. A white indicator light turns on and fades and then the headset will turn off.

Pair the headset with your phone

Pair the headset with your phone manually or by using NFC. After successful pairing, the headset connects automatically to the phone once the headset is turned on and within range.

Manual Pairing

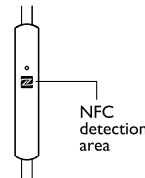

- Make sure your headset is turned off.
- Press and hold  until an alternating blue and white light flashes.
- Turn on the Bluetooth function on your phone.
- Your phone will start searching for Philips SHB5800.
- Follow the on-screen instructions to pair your phone. (Check your phone's user manual for details)

'0000' not required for some mobile phones

NFC Pairing

- Make sure you turn on the NFC function on your phone and that your phone's screen remains active.
- Place your phone over the NFC detection area at the back of the in-line control.
- Follow the pairing instructions of your phone. If a passcode is required, enter '0000'.

Remarks:

- Make sure your mobile phone has the NFC feature and that the NFC function has been switched on and your phone is not in standby mode.
- Pairing with NFC is suitable only for Android mobile operating system 4.2 or above.
- Refer to your phone's user manual to identify its NFC detection area.

Use music and call controls

Music controls
