低功率電波輻射性電機管理辦法

第十二條
經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條
低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

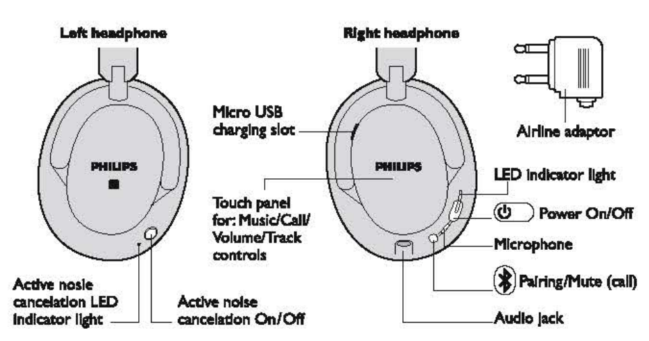
EN Quick start guide

Philips Bluetooth active noise canceling headphones SHB9850NC



Charge the battery

1. Plug one end of the USB cable into the charger or into the USB port of a computer.
2. Plug the other end of the cable into the micro USB charging slot on the headphones.

Turn the headphones on and off

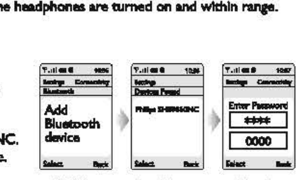
1. Turn the headphones on. Press and hold ⏻ for 4 sec.
2. Turn the headphones off. Press and hold ⏻ for 4 sec. A white indicator light turns on and fades and then the headphones will turn off.

Pair the headphones with your phone

Pair the headphones with your phone manually or by using NFC. After successfully pairing, the headphones connect automatically to the phone once the headphones are turned on and within range.

Manual Pairing

1. Make sure your headphones are turned on.
2. Press and hold ✱ until an alternating blue and white light flashes.
3. Turn on the Bluetooth function on your phone.
4. Your phone will start searching for Philips SHB9850NC.
5. Follow the on-screen instructions to pair your phone. (Check your phone's user manual for details.)

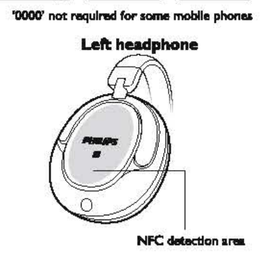


'0000' not required for some mobile phones

NFC Pairing

1. Ensure the NFC function on your phone is switched on and that your phone's screen remains active.
2. Place your phone over the headphones so that the NFC detection area of each device touch each other.
3. Follow the pairing instructions of your phone. If a passcode is required, enter '0000'.

Tips:
- Ensure that your phone is not in standby mode.
- Pairing with NFC is suitable only for Android mobile operating system 4.2 or above.
- Refer to your phone's user manual to identify its NFC detection area.



Use music/voice/call controls

Music controls

Play/Pause	Tap once
Volume up	Slide up or slide up and hold
Volume down	Slide down or slide down and hold
Skip forward	Slide forward
Skip backward	Slide backward

Voice controls

Siri/ Google Now	Press once ✱

* To use the voice control feature on your phone via Bluetooth please refer to the user manual for the correct settings for your device.

Call controls

Pick up call/ Hang up	Tap once
Reject incoming call	Tap and hold
Mute/unmute the mic while in a call	Press once ✱
Switch caller while in a call	Slide forward

LED Indicator light (Right headphone)

An alternating white and blue light flashes	The headphones are in pairing mode
A blue light flashes at every 8 second interval	The headphones are both paired and connected
A blue light flashes rapidly	The headphones are switched on but not connected. If no connection can be made the headphones will turn themselves off after 5 minutes.
A white light flashes slowly	The battery is low
A white light turns on	Headphones are being charged
A white light turns off	Headphones are fully charged

Enabling ANC (Active noise cancelation)

1. Turn the headphones on.
2. To enable active noise cancelation, press and hold NC On/Off button for 2 seconds.
3. To disable active noise cancelation, press and hold NC On/Off button for 2 seconds.

Enabling awareness mode (when ANC is on)

1. To enable awareness, press NC On/Off button once.
2. To disable awareness, press NC On/Off button once when awareness mode is on.

ANC LED indication (Left headphone)

Green light on	Active noise cancelation ON
Green light flashes	Awareness mode ON
Green light off	Active noise cancelation and awareness mode OFF

Corded audio connection

When the battery is low you can continue to use the headphones with the audio cable (for music only). Inserting headphones jack will turn off the Bluetooth function.

Connecting to airline audio systems

Connect audio cable into airline adapter and insert it into the dual output jacks in airplane seat.

◎	One 3.5 mm jack (on most portable sources)	Use the single plug. No adapter needed.
◎◎	Two 3.5 mm jacks	Use the 3.5 mm dual plug airline adapter
○ ◎◎	One power jack and two 3.5 mm jacks	Use the 3.5 mm dual plug airline adapter for the two 3.5 mm jacks. Do not insert any plug into the power jack because it may damage the headphones and result in personal injury.

WARNING! Use only the Philips airline adapter to connect headphones to airplane seat jacks. DO NOT use other airline adapters as they might not result in the correct response or even result in personal injury such as burns or property damage due to overheating. Remove and disconnect immediately if you experience warming or loss of audio.

Please refer to www.philips.com/welcome for the full user manual
