1. On/off
2. DC 5V
3. AUX input
4. Built-in mic
5. Vol+ / forward track
6. Vol- / Previous track
7. Play/Pause/Answering/Ending/Rejecting a call

PAIRING YOUR SPEAKER

Your speaker will work best if it is within 33 ft. of your smart device. You may experience sound briefly cutting off if you are out of range or if your wireless connection is weak. Make sure Bluetooth is enabled on your smart phone or tablet before starting the pairing process.

Turn on the speaker by flipping the Power Switch to the "On" position. The speaker will "beep" when it is ready to connect.

From your smart phone or tablet, find a list of nearby devices and choose "DG-478". Enter "0000" if asked. The speaker will "beep" again when pairing is complete!

To have your Speaker pair automatically to this device when in pairing mode and in range, you can select "Don't ask this again."

NOTE: The screenshot above is typical of many Bluetooth®-enabled phones in the market today, and is used to assist in the explanation of the pairing process. Your mobile phone's interface and interaction with the Bluetooth® Speaker may differ slightly from the illustration above.

USING YOUR BLUETOOTH® SPEAKER

Powering your Speaker On/Off

- To turn your speaker on, press the Power button. The LED light will flash quickly. When your device is connected to the speaker successfully, the LED light will flash once every few seconds.
- To turn your speaker off, press the Power button. The LED light will power itself off.

Answering/Ending a Call

- To answer a call, quick press the MODE button.
- To end a call, quick press the MODE button again.

Adjusting Volume

- Press and hold the Vol+ and Vol - button to adjust volume during a call or while music is playing.

NOTE: You may also adjust the volume from your mobile phone's volume controls.

Making a Call

• Dial the number from your mobile device and press the Send or Call button. The call will automatically transfer to your speaker.

Redialing the Last Number

- Quick press the MODE button twice. The last number dialed from your mobile device will be dialed.

Rejecting Calls

- To reject an incoming call, press and hold the MODE button for 3 seconds. The call will disconnect from your mobile device.

STEREO BLUETOOTH

This speaker allows you to listen to and control the music on your Bluetooth-enabled mobile phone, computer, or mp3 player in full stereo. It supports the following profiles:

- A2DP: Advanced Audio Distribution Profile
- AVRCP: Audio/Video Remote Control
- HSP: Headset Profile
- HFP: Hands-Free Profile

To use the speaker to listen/control music, your Bluetooth-enabled device must support the A2DP and AVRCP profiles. Please refer to the user guide of your Bluetooth-enabled device for more information.

PLAYING MUSIC

To enjoy wireless music on your Portable Stereo Bluetooth® Speaker, make sure you are connected to a Bluetooth®-enabled media device. Once connected, you can press PLAY on your Bluetooth® device or you can press the MODE button on the DG-478 Bluetooth® Speaker Bar. Once playback has begun, you can control the music or answer phone calls from the control buttons on the Speaker.

Please note, not all mobile phones support the control of music using Bluetooth®.

NOTE: Most media-enabled smart phones will display "connected to phone audio and media" when connecting to the Bluetooth® Speaker. This means you can make phone calls and enjoy your music.

Play/Pause

- Press the MODE button to pause the music. To resume music playback, press the MODE button again.

Skipping Tracks*

- (*Not available on all phones)
- Press the Vol - once to skip to the previous track.
- Press the Vol + once to skip to the next track.

USING AS A WIRED SPEAKER

The DG-478 can be used as a wired speaker by using an auxiliary cable. This cable is not included with your speaker.

1. Plug one side of the auxiliary cord into the AUX jack of your device.
2. Plug the other end of the auxiliary cable into the 3.5mm AUX jack on the speaker.
3. Using your media device's music controls, you can control music and adjust volume.

NOTE: When connected via AUX cable to your speaker, only the Vol + and Vol - buttons work on the speaker. To skip to the previous or next track, you will need to use the controls of your audio device.

In order for Bluetooth® devices to communicate with one another properly, they must utilize the same Bluetooth® profile. To determine the profiles supported by your device, please refer to the device's user guide.

Certain Bluetooth® features including those listed may not be supported by all compatible Bluetooth®-enabled devices and/or the functionality of such features may be limited with certain devices.

Bluetooth frequency: 2.4GHz
Battery capacity: 400mAh
Play Time: Up to 2 hours
Operating Range: up to 33 feet (10m)
Charging Interface: Micro USB (included)
Optional AUX (included)
Battery: Built-in Lithium-ion

TROUBLESHOOTING

Please refer to the below frequently asked questions to see if these basic troubleshooting tips help solve

your problems.

- I can pair the Bluetooth® Speaker with my Bluetooth® device, but I cannot hear any music.
- Make sure your device supports the A2DP profile

- I cannot get the Bluetooth Speaker into pairing mode.

Make sure the Bluetooth® Speaker is turned off before beginning the pairing process. Slide the power switch to the On position and wait for the LED light to flash blue six times quickly. Quickly press the MODE button after this, and the LED light will alternately flash red and blue.

- My mobile phone is not able to pair with the Bluetooth® Speaker Pod.

Make sure that you fully charged the speaker before use. Keep your Bluetooth® Speaker and mobile phone within 33 feet of each other during the pairing process. Check that your phone's Bluetooth is enabled. Try repeating the pairing process.

MAINTENANCE

Power this product off when not in use.

DO NOT expose this product to water or liquid.

DO NOT use abrasive cleaning solvents to clean this speaker. Clean with a dry cloth if necessary.

If you are not using the speaker for a long period of time, store in a dry, safe location. Charge the speaker every 2 months when in storage to maintain battery life.

on normal wear and tear. There is no warranty obligation in the event of marginal differences compared to the target appearance and workmanship provided these have a negligible effect on the product's fitness for use, in the event of damage caused by chemical or electrochemical effects, by water or generally from abnormal conditions.

1) The warranty will be performed in such a way that we

shall decide whether to repair the defective parts or to replace them with working parts free of charge.

Vibe™ reserves the right to exchange the product for a replacement product of equal value if the product sent in cannot be repaired within a reasonable time or at a reasonable cost. Requests cannot be made for repairs to be carried out on site. Parts that have been replaced or exchanged become our property.

2) The warranty claim does not apply if repairs or other work is carried out by unauthorized persons or if our products are equipped with additional parts or accessories that are not approved for our product.

3) Warranties that have been activated do not cause the warranty period to be extended, nor do they trigger a new warranty period. The warranty period for any replacement parts installed ends with the warranty period for the entire product.

4) Any other further claims are excluded, especially those for replacement due to damage caused to the outside of the product, provided there is no obligatory legal liability. We therefore accept no liability for accidental, indirect or other consequential damage of any kind, which leads to usage restrictions, data loss, and loss of earnings or interruption to business

Asserting a warranty claim:

- 1) To make use of the warranty service for hardware issues, you must contact the Vibe™ Service Center by email at support@dglusa.com
- 2) Vibe™ will try to diagnose and solve your problem. If it is determined that a warranty claim exists, you will be given an RMA number (Return Material Authorization) and will be asked to send the product to Vibe™.

IMPORTANT: Vibe™ will only accept parcels that have an RMA number.

Please observe the following when sending the product:

- 1) Send the product suitably packaged with carriage and insurance paid. Do not enclose any accessories with the product (cables, chargers, manuals, etc.) unless the Vibe™ Service Center specifies otherwise.

- 2) Mark the RMA number on the outside of the package in such a way that it is visible and clearly legible.
- 3) You must enclose a copy of the sales slip as proof of purchase.
- 4) Once Vibe™ has received the product, it will meet its warranty obligations in accordance with the warranty conditions and will return the product to the sender with carriage and insurance paid.

Service outside of warranty

Vibe™ can refuse any service claim made that is not covered by the warranty.

If Vibe™ agrees to provide a service outside the warranty, the customer will be invoiced for all repair and transport costs. Vibe™ will not accept any packages that have not first been approved by Vibe™ by means of an RMA (Return Material Authorization).

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC INSTRUCTIONS FOR A CLASS B DIGITAL DEVICE OR PERIPHERAL

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
