PHONE MOUNT WITH WIRELESS CHARGING

PARTS:

1. Cradle
2. Base
3. Wireless Charging Pad
4. Adjustable Grips
5. Adjustable Holder
6. Suction Cup Lock
7. Suction Cup
8. Micro USB Port

Features:

- Adjustable phone cradle
- Up to 15W wireless charge
- Secure suction lock
- Universal fit
- 3.5" max width
- For dashboards and windshields
- Input: 5V/2A, 9V/2A
- Output: 5W/7.5W/10W/15W

Instructions:

1. Secure the cradle to the gimbal base by twisting the lock.
2. Peel off the protective film from the suction cup.
3. Place the Phone Mount on your car's dashboard or windshield, press it down, and engage the suction lock for a secure attachment.
4. Connect the Micro USB cable's end to the mount's Micro USB port and the USB-A end to the car's USB-A port.
5. Firmly secure your device in the cradle by closing the grips and make any necessary adjustments to the adjustable holder.
6. To optimize charging, ensure the phone is placed correctly on the wireless charging pad. If the phone is not positioned accurately, it may result in slower charging or no charging at all.*
7. Adjust mount to desired angle.

This wireless charging pad is compatible to iPhone 14 Pro, Samsung Galaxy S7 and Huawei Mate 50, etc.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

*Please check your respective device's specifications for maximum speed capabilities and to ensure that it has wireless charging capability.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

CAUTION: Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
