BLUETOOTH® MODE

- Press and hold power button for 3sec to activate bluetooth® mode and start pairing process
- Activate Bluetooth® on your device and select “SA-RBSP” on Bluetooth® list to pair
- Speaker will confirm when BT connection is successful

TRUE WIRELESS STEREO (TWS) FUNCTION

TWS mode requires two compatible speakers (sold separately)

Under TWS mode, you can connect two speakers wirelessly for a more immersive experience. To enter TWS mode, make sure both speakers are in bluetooth pairing mode, double press “” on one of the speakers, the speaker will make an indication sound. After 3 seconds, the other speaker will make a voice prompt to confirm the pair of speakers are connected and ready to be used. You can now pair the speakers to your smartphone or other Bluetooth® devices.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy. If not installed and used by the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
