Important guidelines:
- Read the user manual carefully and keep it for reverence.
- Use this product only as described in this user manual.
- If the instructions are not followed, the manufacturer may not be held responsible for damage that may result from incorrect use of this product.
- Let repairs be done by a qualified mechanic. Never try to repair the product yourself.
- Do not place heavy objects on the keyboard cover.
- Keep the product away from water, oil, chemicals, and organic liquids.
- Clean the product by lightly rubbing it with a slightly damp cloth.

GUIDELINES FOR PROTECTION OF THE ENVIRONMENT
(WEEE, directive on waste of electrical and electronic equipment)

Your product is designed and manufactured with high quality materials and components which can be recycled and reused. This appliance should **not** be put into the domestic garbage at the end of its durability, but must be offered at a central point for the recycling of electric and electronic domestic appliances. This crossed-out wheelie bin symbol on the appliance, instruction manual and packaging puts your attention to this important issue.
The materials used in this appliance can be recycled. By recycling used domestic appliances you contribute an important push to the protection of our environment. Ask your local authorities for information regarding the point of recollection.

Battery/batteries disposal
Check the local regulations concerning the disposal and processing of batteries or contact the town hall or your waste disposal company or with the store where you purchased the product.

The battery/batteries should never be disposed of in the normal garbage waste. Use a battery processing authority in your area or community, when and where available.

Product specification can be changed without notice

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
