Reference: FCC ID: 2AAOUQM WV4REV12 Class II Permissive Change

Dear Sir,

The purpose of this Class II Permissive Change Application is to show compliance of the EveryFit Wearable Help Button due to a change in the duty cycle. The duty cycle change was the only change made to the device and all previously submitted documentation from the original certification filing remains the same.

Included with this Class II Permissive Change Application is a test report containing duty cycle measurements and fundamental and spurious emissions test data.

Thank you for your attention to this matter.

Sincerely,

Retlif Testing Laboratories (Authorized Agent for EveryFit, Inc.)

Scott Wentworth
Branch Manager
