Environmental Tips

Environment-friendly use period of this product is 10 years. Climatic conditions for normal work, storage, and transportation specified in the technical characteristics of the product. At the end of use period, we suggest to return the product (including package) to our company.

Assembly unit name	Harmful substances					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Shell	○	○	○	○	○	○
PCB	×	○	○	○	○	○
Cable	○	○	○	○	○	○
Packaging Materials	○	○	○	○	○	○
This form is prepared according to the provisions of SJ/T 11364.						
○ : It is indicated that the content of the harmful substance in all the homogeneous materials of the component is below the limit specified in GB/T 26572.						
× : It is indicated that the content of the harmful substance at least in one certain homogeneous material of the component is beyond the limit specified in GB/T 26572.						
Note: 1. Most components in this product use harmless environment-friendly materials, and due to limited international technology level, some harmful materials cannot be replaced.						
2. The environmental data for reference are tested in the normal use and storage environment of this product requirements, such as humidity and temperature, etc.

FAQ

1. **Reconnect the scanner** (How to reconnect the scanner to computers or smartphones you have successfully paired with before?)
 - a. Select and remove the paired scanner in PC Bluetooth devices list, or cancel paired scanner in smartphone Bluetooth devices list.
 - b. Set up the scanner by scanning "Initialization Settings".
 - c. Refer "How to Use".
2. Why can't I upload the data saved in the scanner under "Inventory Mode" via Bluetooth dongle?

Please scan "Upload Inventoried Data" barcode to upload.
3. Why does computer or smartphone fail to find the Bluetooth scanner?
 - a. Make sure the scanner is turned on and scan corresponding Bluetooth Mode.
 - b. Please try **"Reconnect the scanner"**.
4. Why can't I upload Barcodes to my computer or smartphone which has been automatically paired?
 - a. Make sure devices are paired and indicator turns to blue light.
 - b. Check out if "Inventory Mode" switches on. Under this mode, barcodes won't upload automatically, please scan barcode "Normal Mode" to retry.
5. Some barcodes cannot be read, why?
 - a. Dirty or unclear barcodes might not be read.
 - b. Some uncommon barcode types are not commonly used and thus not activated by default. Please scan "All Barcode Types On" in "Barcode Type Setting" chapter to retry.
6. Can the scanner connect to smartphone or tablet after connecting to computers?

A scanner can only connect to one device at a time. If you want to change device, please try **"Reconnect the scanner"**.
7. How to solve the messy code problem encountered while using other foreign languages?

Please refer to "Language Setting" chapter, and scan "International General Keyboard". If messy code problem can't solve yet, please feel free to contact our customer service for further assistance.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
