Dear Sir/Madam,

The DMR with FCC ID: 2AAR8RETEVISRT3 was designed to operate in the frequency bands 400-480MHz.

To aid equipment authorization in other countries which accept the United States FCC Grant for certification, Zhengzhou eShow Import And Export Trade Co., Ltd. is requesting that the FCC lists the frequencies 400-480MHz, under FCC Rules Parts 90 on the FCC Grant.

For the FCC's Rule Part 90 applications, this device is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. as indicated in the table below. Equipment programming is the responsibility of Authorized Service Personnel. Also, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Zhengzhou eShow Import And Export Trade Co., Ltd. attests that the device will not be marketed to USA users with the frequency band which is not allowed by the rule part 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
