

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (End User Terminal) assembly. On the left is a green printed circuit board (PCB) with two yellow circular components (likely capacitors or batteries) and a black rectangular component (likely a microcontroller or sensor). The PCB is labeled with '1' and '5021'. To the right of the PCB is a black, triangular-shaped housing. Both components are placed on a blue textured surface. A black ruler with white markings is visible at the top and bottom of the image, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of the green PCB assembly from the previous image. The PCB is labeled with '1' and '5021'. It features two yellow circular components and a black rectangular component. The assembly is placed on a blue textured surface. A black ruler with white markings is visible at the top and bottom of the image, showing measurements in millimeters.
