RADIATED RF MEASUREMENT SETUP (30MHz~1GHz)

RADIATED RF MEASUREMENT SETUP (Below 30MHz)

A photograph showing a black laptop on a light-colored wooden table. The laptop screen displays a Windows desktop with a landscape wallpaper. To the right of the laptop is a small, white, cylindrical camera module mounted on a black base. A black cable runs from the laptop to a small black electronic device on the table. Another black cable runs from this device to a power supply unit (PSU) on the floor. The PSU is a silver and black unit with a blue fan. A blue and white striped caution tape is partially visible on the floor next to the PSU. A black mat is also on the floor. The background is a plain, light-colored wall.
