

EDC15SA Antenna Specification Sheet

Shenzhen EasyDetek Technology Co.,Ltd

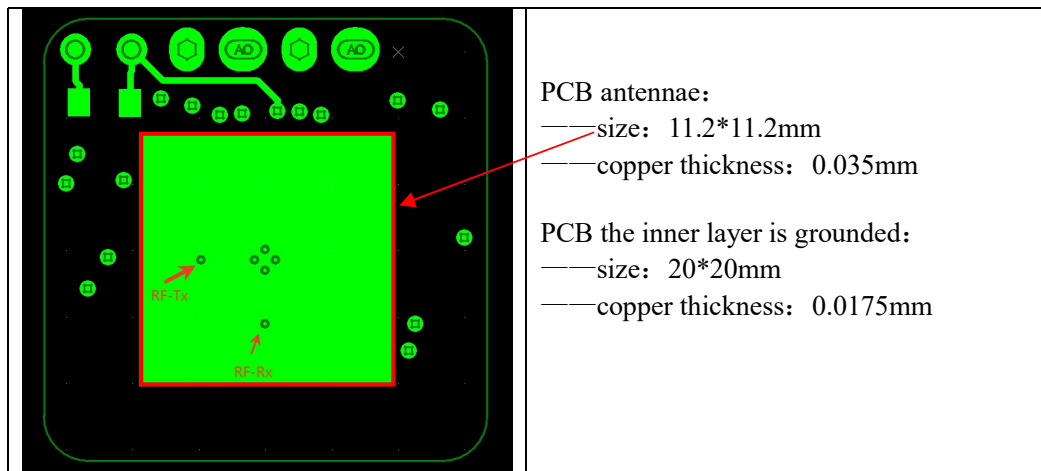

Room 402, Building B, Jianyuan Zhichuang Park,Xixiang Street, Baoan District, Shenzhen

It is mainly used for antenna applications in the 5.8GHz frequency band

Structure:

Size:

PCB antennae:

—size: 11.2*11.2mm

—copper thickness: 0.035mm

PCB the inner layer is grounded:

—size: 20*20mm

—copper thickness: 0.0175mm

electrical characteristics

EDC15SA	parameter scale
Working Frequency	5725MHz-5875MHz
Band Width	FSK >140MHz
Impedance	50 Ω
Gain(dBi)	Max 3.4dBi
VSWR	>2
Operation Temperature	-20~85℃
