

CTS Tank Alarm

3-12

TANK GAUGES AND ALARMS

Alarm for use with oil, waste oil, diesel fuel, antifreeze, and other fluids with a low flash point.

- The sensor will measure tank depths from 8" to 300" (20 to 760 cm) high.
- LED alarm will display tank levels in English or metric units.
- Alarm displays tank level height and % full.
- The alarm will warn if the tank fluid level is "low" or "high" using an audible alert and lighted display.
- Customer can silence audible alert once high or low levels have been alerted.
- Allows customer to continue filling or emptying the tank past alarm level.
- Alarm/Sensor range inside a building is 30 ft.
- The alarm can be programmed to display up to six sensors.
- Alarm and sensor are powered by standard 110 VAC/12 VDC power supply.
