CHARGING

This device has a built-in rechargeable lithium battery which can be charged by connecting to the USB port of your computer or into an AC adapter which contains a USB port. When charging is complete, the red LED will turn OFF. Please charge the battery for at least 8 hours before the first use. The stand will beep when the battery is low.

CABLE CONNECTION

BLUETOOTH® CONNECTION

- Ensure your Bluetooth® device is within 10m (32-ft.) of your speaker
- Activate pairing mode by switching ON/OFF button to ON. The LED will flash green
- Navigate to the Bluetooth® function on your device (refer to your device's owner's manual for instructions)
- Turn on your device's Bluetooth® and search or discover devices
- Select "Gadget 8007333" from the list of discovered devices
- Type password "0000" if required and press enter

After completing the steps above a message will appear on your device confirming that it has been paired. If pairing is unsuccessful, turn the tablet stand OFF then ON to restart. Once paired, your device will automatically reconnect, provided it's Bluetooth® is on and within range.

Power supply: Lithium battery or USB cable
Compatible with: iPhone, iPad, smartphones, laptops, MP3, etc.
Function spec: Bluetooth®, line-in
Dimensions: 200mm x 73mm x 32mm

WARNING

- This unit has a built-in rechargeable lithium battery. Please charge the battery for at least 8 hours before the first use
- If the device is not used for a long period of time the battery may be out of power. Please recharge the battery
- Rechargeable batteries should only be charged under adult supervision
- Use only the supplied micro USB cable to recharge the battery. Improper charging may damage the battery and device
- **DO NOT** attempt to open the rechargeable battery or battery pack, there are no serviceable parts
- Should the battery leak the device may become damaged. Clean the compartment immediately being careful to avoid having the battery acid touch your skin
- Keep the battery out of reach of children. If swallowed, consult a physician immediately
- Avoid storing in an extremely hot or cold environment. If device is hot or cold it may not work temporarily, even if the battery is fully charged
- Never dispose of used batteries in an open fire as they may explode. Batteries may also explode if damaged. Please dispose of them according to local regulations. Do not dispose of them as household waste

The FCC Wants You to Know

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for additional suggestions.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

INDUSTRY CANADA NOTICE RSS247

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of Industry Canada.

FCC ID: ZABST-8007333

THE SOURCE - WARRANTY

The Source warrants that this product will be free from defects in materials and workmanship for a period of six (6) months from the date of purchase. Within this period, simply take the product and your proof of purchase to any The Source store or participating dealer and the product will be replaced (where available) without charge. Any product which has been subject to misuse or accidental damage is excluded from this warranty. This warranty is only applicable to a product purchased through The Source company-owned stores or participating dealers in Canada where the warranty is included with the product. While this warranty does not confer any legal rights other than those set out above, you may have additional statutory rights which will vary under the laws of the various countries, states, provinces and other governmental entities in which The Source operates. This warranty is subject to all statutory rights you may have in Canada.
