To whom it may concern:

The RF chip, model CYW43012, which installed in our product August Smart Lock, Model: ASL05-5G, FCC ID: 2AB6UASL05-5G, IC: 12163A-ASL055G, supports 802.11a/b/g/n/ac, Bluetooth BR/EDR/LE 1M/LE 2M. For use in America and Canada, this chip will only support/enable 2.4G Wi-Fi, BLE 1M, and 5G Wi-Fi. Other functions have been disabled by the manufacturer through software. Also, since 5150-5250 MHz is indoor use only, this band will be disabled as well in Canada.

Sincerely Yours,

Aaron Treger
