To Whom It May Concern,

Subject: Declaration of not including 40MHz bandwidth

Dear Sir or Madam:

We, PayPal hereby declare that our product: PayPal Beacon, model: DCBNEE01 (FCC ID: 2AB8CDCBNEE01, IC: 11927A – DCBNEE01), has the WiFi / BT chip - Murata Module, Part number : LBEH5DKVMC-712

Supporting 40 MHz however, we have chosen to disable the 40MHz function by secure software image load when manufacturing the products.

This secure software image cannot be changed or altered by any third party except authorized PayPal employees/engineers and PayPal guarantees operation only at 20 MHz.

Sincerely Yours,

A handwritten signature in black ink, appearing to read 'Babu', with a horizontal line extending from the end.
