Columbia, MD 21046

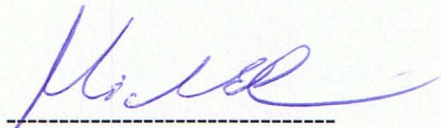

Dear Sirs,

I request modular approval for the certification application of 2ABBXCM9301V442014. This product complies with the requirement for modular approval as below.

1. The module has been shielded.
2. The module incorporates a buffer stage on the inputs to limit over-modulation.
3. The module has power regulation incorporated in the circuitry to ensure continued compliance regardless of the design of the power supplying circuitry.
4. The module utilizes a unique antenna configuration embedded in the printed circuit board and complies with the antenna requirements.
5. The module is test in a stand alone configuration.
6. The module has its own FCC ID and the label is visible.
7. The EUT complies with all applicable FCC Rules. Warning detail refer to the user manual.
8. The unit complies with the RF exposure.

Sincerely,

C-MAX Asia Limited

Michael Chiu
General Manager
