Preface

Thank you for choosing Apolosign Smart Digital Calendar!

Before starting up, please carefully read this user manual to understand how to use the device and important precautions.

Warning

- * Use only the power adapter accessory provided by the original manufacturer.
- * The gaps and openings on the device are designed for ventilation and heat dissipation, Do not block or cover them.
- * Do not use or store the device in dusty, humid, or high-temperature environments.
- * Do not attempt to disassemble or repair the device if it malfunctions. Contact the original manufacturer or dealer for assistance.
- * Avoid stepping on the power cord or power adapter to prevent damage to the wires that may cause electrical hazards. If the power adapter's cord is damaged, do not continue to use it as it may be dangerous.
- * During thunderstorms or when the device will not be used for an extended period, unplug the power cord.
- * Do not place the device on the edge of a desk or in areas where children may easily access it to avoid damage or injury to the child.
- * During transport, do not apply excessive pressure on the display screen or scratch it with sharp or hard objects, as this may cause damage to the screen.
- * Use a dry, soft cloth or a slightly dampened soft cloth with a mild cleaning solution to clean the device. Do not use any type of solvent, such as alcohol or gasoline, as it may damage the surface treatment layer.
- * Make sure children understand the danger of climbing on the product, as dropping or tilting the product may cause serious injury.
- * Do not place the product in an unstable or tilted position.
- * Keep the cables connected to the product organized to avoid tripping, pulling or grabbing.

What's in the box

The package contents vary depending on the model configuration.

Digital Calendar *1

Wall mount bracket *1

Wall anchors*5

Long screws*5

Power adapter *1

Mounting paper *1

Drill bit*1

Spirit level*1

Product Specifications

System	CPU	RK3576S Quad core cortex A53+ Quad core cortex A72
	RAM	4GB
	Internal memory	64GB

+	Adjust system volume up
-	Adjust system volume down

Wall Mounting Instructions

STEP 1

Before installing the device, please use the wall-mounted guide paper to determine the actual installation location.

STEP 2

Use a 7/32-inch drill bit to drill holes at the four hole positions of the wall-mounted guide paper.

Friendly reminder: The drill bits we provide are suitable for wooden boards and gypsum boards, not for concrete.

STEP 3

Remove the installation paper from the wall, insert the wall anchor (wall plug) into the holes and hammer it in.

STEP 4

Place the spirit level below the wall-mounted panel, ensure that the wall-mounted bracket is aligned with the pre-drilled holes, and then fix it with long screws. After fixing it securely, remove the spirit level.

STEP 5

Connect the power cord, and then arrange the cord neatly and bury it into the wire passing hole.

STEP 6

After aligning the wall-mounted holes on the back of the device with the wall-mounted bracket, slide the device downward until it is firmly fixed on the bracket. (Use the horizontal wall-mounted holes for horizontal installation and the vertical wall-mounted holes for vertical installation.)

STEP 7

Your digital calendar has now been installed and can be powered on and used normally.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with parts of the FCC rules. Operation is subject to the following two conditions:

This device will not cause harmful interference;

This device must accept any interference received, including interference that may cause undesired operation

This product complies with the essential requirements of European safety regulations and has passed the product safety conformity assessment procedure. It also has a manufacturer's declaration of conformity to ensure that every product delivered to the customer is safe.
