Item 1. The device is able to install software/program installation?

☒ Yes, go to Item 2.

☐ No. In this case, the rest of the items do not apply. The device cannot support installation of Kaspersky cybersecurity or anti-virus software.

Item 2. Technical Requirements for Kaspersky Cybersecurity Software:

| # | General Requirements (For all Devices)                                     | Yes / No or N/A | Comments |
|---|----------------------------------------------------------------------------|-----------------|----------|
| 1 | Internet connection for activation and updates (For all Operating Systems) | YES             | WLAN     |

| # | General Requirements (For Windows Devices)    | Yes / No or N/A | Comments |
|---|-----------------------------------------------|-----------------|----------|
| 1 | Storage: 1500 MB free space on the hard drive | N/A             |          |

|   |                                                                                                                                                                                            |     |  |
|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--|
| 2 | Operating System:<br><br>Microsoft Windows 8, 8.1, 10 & 11 Home / Pro / Enterprise<br>Microsoft<br><br>Windows 7 Starter / Home Basic & Premium / Professional /<br>Ultimate SP1 or higher | N/A |  |
| 3 | Processor: 1 GHz or higher (x86 or x64)                                                                                                                                                    | N/A |  |
| 4 | Memory (RAM)1 GB (32-bit) or 2 GB (64-bit)                                                                                                                                                 | N/A |  |
| 5 | Screen Resolution: Minimum resolution of 1024 x 768                                                                                                                                        | N/A |  |

| # | General Requirements (For macOS devices)      | Yes / No or N/A | Comments |

After reviewed the technical requirements, is the device capable of supporting the installation of Kaspersky software?

☒ Yes, go to Item 3.

☐ No. In this case, the rest of the items do not apply. The device cannot support installation of Kaspersky software

Item 3. Connectivity Capabilities:

| # | Physical Interface | Purpose | Justification <sup>1</sup> |
|---|--------------------|---------|----------------------------|
|---|--------------------|---------|----------------------------|

<sup>1</sup> The justification field is used to justify why the software cannot be received through that interface. Check the annex for more indications.

|   |                 |                                |                                                       |
|---|-----------------|--------------------------------|-------------------------------------------------------|
| 1 | USB Type-C port | Can connect to docking station | Built-in firmware blocks Kaspersky software downloads |
|---|-----------------|--------------------------------|-------------------------------------------------------|

| # | Wireless Interface | Purpose                   | Justification <sup>1</sup>                                             |
|---|--------------------|---------------------------|------------------------------------------------------------------------|
| 1 | WiFi               | Can connect to Internet   | Built-in firmware blocks Kaspersky software downloads                  |
| 2 | BT                 | Can't connect to Internet | -No file transfer capability<br>-Pairing limited to authorized devices |

After the review of this items, the device:

☒ Cannot support installation of any cybersecurity or anti-virus software on the covered list.

☐ Potentially can operate with any cybersecurity or anti-virus software on the covered list – additional third-party proof is provided to demonstrate compliance with requirements as of 2.911(d)5(i),(ii) – “Proof of Compliance with Covered List Software Requirements” of this document applies

## Proof of Compliance with Covered List Software Requirements

1. Did a test Firm or third party (other than the certification body and applicant) provide a list of software installed on the device and after scan results with no evidence of Kaspersky software?

☒ YES

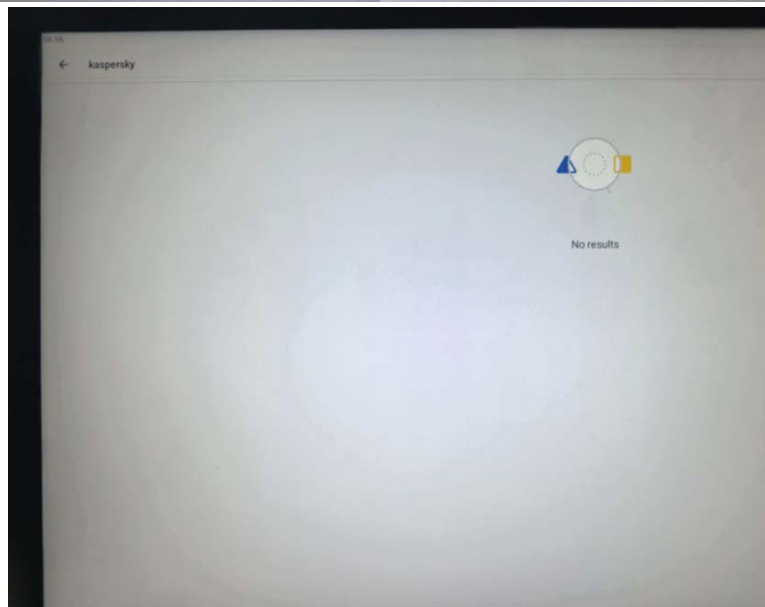

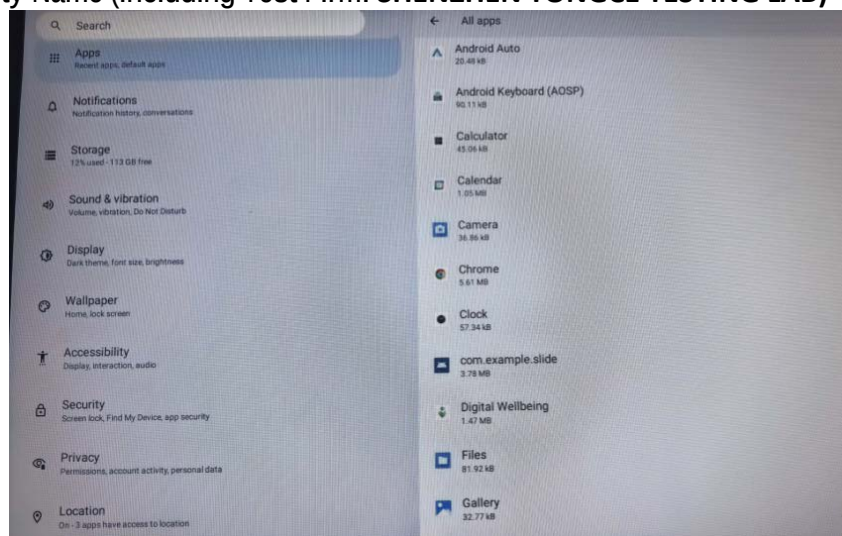

☐ NO

☐ N/A

If YES, provide:

File Name: application search

Third-Party Name (including Test Firm: **SHENZHEN TONGCE TESTING LAB**)

Has other objective evidence been provided that no Kaspersky software is installed?

☒ YES

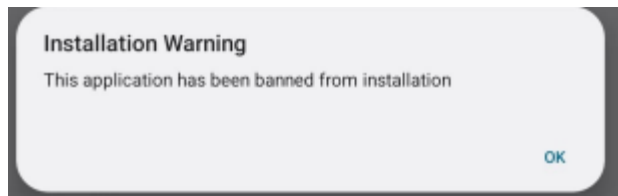

☐ NO

☐ N/A

If YES, provide:

File Name: Application installation

Third-Party Name (including Test Firm: **SHENZHEN TONGCE TESTING LAB**)
