Built-in Camera User Manual

T H E E Y E O F I T W O R L D . M C N E X

1. Product Overview

The built-in cam is a system that records video, audio, and vehicle driving data input from the front and rear cameras (total of 2 channels) of the vehicle and provides stored video.

The built-in cam aims to provide convenience by recording video of the front and rear of the vehicle according to each condition when driving with the ignition turned on and when parking after the ignition is turned off.

2. How to use the product

The built-in cam camera transmits front/rear vehicle video, audio, impact detection, and motion detection data captured by the image module to the built-in cam controller.

3. Product Composition

4. Product Check List

No	Check List	Description
1	Part Name	CAMERA ASSY – BLTN CAM FR VIEW
2	Model Name	BLTN CAM 25G FR
3	Date of Manufacture	August 2024 ~
4	Manufacturer	MCNEX
5	Country of manufacture	Vietnam
6	Operating Frequency	60 GHz
7	Operating Temperature	-40℃ ~ 85℃
8	Operating Volatage	Controller : 12V Camera : 8.5V ±0.2V
9	A/S Information	Within 1 Year

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference,
and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide

reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed

and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur

in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on,

the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device should be installed and operated with minimum 20 cm between the radiator and your body.

– ISED Warning

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This device should be installed and operated with minimum 20 cm between the radiator and your body.

Cet appareil contient des émetteurs / récepteurs exempts de licence qui sont conformes aux RSS exempts de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes:

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent provoquer un fonctionnement indésirable de l'appareil.

Cet appareil doit être installé et utilisé avec un minimum de 20 cm entre le radiateur et votre corps.
