Re: Attestation Letter for FCC ID 2ABDV-0929

To whom it may concern:

Catha Maeve LLC and its affiliates (the “Company”) hereby attests that the product FCC ID 2ABDV-0929 (the “Device”) meets the requirements set forth in the FCC’s guidelines entitled “Guidelines for Labelling and User Information for Devices Subject to Part 15 and Part 18” to place the FCC label in a user-accessible area of the Device instead of the exterior:

- The Device is handheld.
- The FCC identifier is visible at the time of purchase. Specifically, the FCC label will be inside the battery compartment of the Device, Company will market the device without the battery installed, and there will be documentation at the time of purchase directing the user where to find the FCC label.
- The battery compartment of the Devices does not require any special tools for access and the FCC label will not be placed on a removable part of the battery compartment.
- The FCC ID, the Device model number, and/or the FCC logo will be on the FCC label and will meet all applicable general labelling requirements or policies.

Sincerely yours,

Christine Behne (f/k/a Sheeley)
