radio controlled all-terrain vehicle sport quad

BATTERY INSTALLATION

Requires 6x AA "D" size batteries (not included for ATV) and one 90 battery (not included for radio controller).

- Carefully remove battery from package.
- Insert the battery compartment into the underside of the ATV and wireless controller.
- Insert the battery compartment into the battery of the ATV to ensure the battery compartment.
- Insert the "D" size battery according to the polarity diagram located in the battery tray (Fig. 1).
- Remove the battery compartment.
- Slide open the battery compartment door of the controller (Fig. 2).
- Insert the one 90 battery following the correct polarity.
- Replace the battery compartment door.
- With the top battery, set the radio.

BASIC OPERATION

- Switch both the vehicle and controller power switches to the "ON" position.
- Adjust the steering alignment wheel located on the battery of the vehicle (between front wheels) if the vehicle does not run straight when moving forward.

OPERATING CONTROLS

LEFT JOYSTICK: Controls a vehicle.

RIGHT JOYSTICK: Left a wheel.

STEERING ALIGNMENT ADJUSTMENT: To fix the steering alignment, turn the alignment wheel to the center of the wheel. Turning the wheel to the right or left will cause the vehicle to turn right or left when the vehicle is moving forward. When the vehicle is moving forward, the wheel will turn right or left when the vehicle is moving forward.
