Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2ABGH-R667L5U originally granted on 06/25/2024.

The change under this application is to only disable mmW function by software, add 256+8GB of memory, change PCB board (supplier change), external color and product name, the others are the same as before.

The above changes do not affect the original RF test results.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

Name: Daniel Wan
