MEE audio X9

USB-C Charging Cable

Understanding the X9

The right earphone connects to your Bluetooth device. It can also be used independently as a stereo headset.

The left earphone automatically connects to the right earphone. It cannot be used independently.

STEP 1: CHARGING

Connect charging case to a USB charger.

Place both earphones in case to charge.

Charging Case Battery Indicator Lights

Charging: Solid white lights

Charged: Lights off

STEP 2: PAIRING

Open the Bluetooth menu on your device and select "MEE audio X9".

The right earphone will automatically enter Bluetooth pairing mode.

Pairing mode is indicated by nothing alternating blue and white lights.

Once pairing is complete, a single blue light will illuminate.

STEP 3: FITTING

Select the ear tips with the best sound and comfort for your ears.

Put each earphone in the corresponding ear.

Identify the left and right earphones.

LEFT RIGHT

Adjust each earphone until the flush fit in your ear and the earshells are flush.

Fitting Tip: If earphones are too loose or too tight, try different ear tips.

LEFT RIGHT

STEP 4: POWERING OFF

When done streaming, place both earphones back in the case.

Subsequent Use

When removed from the charging case, the X9 recommends to put it to sleep if not in use for hours.

To initiate pairing mode, open the Bluetooth menu on your device and select "MEE audio X9".

Pairing mode is indicated by nothing alternating blue and white lights.

Pairing New Devices

To manually enter pairing mode:

Remove right earphone from case, press and hold the button for 5 seconds to power it off, then press and hold the button for 5 seconds again until the blue and white light in flash indicating pairing mode.

Select "MEE audio X9" in the Bluetooth menu of the new device to start the pairing process.
