8

4 Troubleshooting

1. If the Instant Alerts red light keeps flashing
- Shortening the distance between the Instant Alerts and the Wireless HUB within about 5 feet and wait 10 seconds.
 - Check the Wireless HUB has been connect to the power, and the power adapter is connected as well.
 - Check the Wireless HUB network cable connection is OK. (Router light on the left blinks, light on the right is always on).
2. If I setup the product by following the instructions and everything works normally, but HeyMomDad App does not prompt call notification, what do I need to do?
- Check the mobile device (mobile phone or tablet) is connected to the Internet.
 - Turn on the mobile device voice prompt function.
 - Quit the HeyMomDad App and reopen the App to login.

Product light status	
Light Status	Note
Light blinks time interval long (Slow blink)	Searching the network
Light blinks time interval short (Fast blink)	Failed to search the network, the device is going to be inactive
Light doesn't blink	Device is inactive, not functioning
Light blinks once when pressed once	Functioning normally
Light always on	Internet network connection is abnormal

5 FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

10

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
