A photograph of a disassembled mobile phone, showing the internal components laid out on a blue textured surface. A ruler is placed vertically on the left side of the image for scale. The main circuit board is green and populated with various electronic components, including a large black integrated circuit (IC) labeled 'K31000000', a smaller IC labeled 'K31000000', and a circular component. A black battery is visible on the right side, with the text '11W8' and '10/05/10/7' printed on it. A small black component, possibly a camera or sensor, is attached to the right side of the board. A white USB cable is connected to the bottom of the board. The ruler shows measurements in centimeters, with markings from 0 to 100 visible.
