1. User manual

1. make sure the smartphone, tablet or computer you want to hook up to speaker has Bluetooth.
2. Turn on the speaker and look for the little blinking light
3. make sure Bluetooth speaker is power on, then you can choose other way player, needing put in the TF memory card.
4. look for **C1** in your device's Bluetooth list or click
5. Depending on your device you may be prompted to enter a pairing code.
6. when the audio device is in play model, the music will sound from the C1 speakers.

Long Press the “-” or “+” button on the C1 to adjust the volume

If you want to change another music, short press “-” or “+” button on the C1 to adjust the music

Depending on your device you may be prompted to enter a pairing code.

If prompted enter “0000” as the code.

Hello? Speakerphone? Yes!

Here's how it works:

1. Make sure your phone and the speaker are connected through Bluetooth and not on a “break.”
2. Answering and ending a call works the same way: simply click the PLAY/PAUSE button on your C1
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your C1 for three seconds to ignore the call.

THE COOLEST PART: The C1 knows when a call is coming in and pauses the music before ringing. When you hang up, the music starts where it left off—and so does the party. If it's you making the call, just start dialing from your phone, and C1 automatically does its hands-free thing. Isn't it refreshing to know your speaker totally gets you?

Charging the speakers is so easy you've

probably figured it out by now, but just in case, you've got two options: your computer or a wall outlet.

1. The cord that came with the speaker—the one with the USB on one end and the Micro USB on the other—will work with your computer.
 2. If you want to use the wall outlet, you'll need to pick up a power cord with a Micro USB the next time you're at the store, or use any USB AC adapter, including the one for your cell.
- Now go get ready for an epic night while your speaker does too. It needs about 2 hours of me time for 4 hours of party time.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IC Statement

- **English:** "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

- **French:**"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."
