VOICE CADDIE®

APP Download

For optimal device usage, please download the [My Voice Caddie] app and connect it to your device. (Note: Connect to the app to download Course View/ Approach View and use features like APL™, and Hole auto recognition.)

APP Connection

- After downloading the app, sign up and log in upon the first launch.
- If you are already a Voice Caddie member, log in using your existing account information.
- After the initial app connection, it will automatically connect for future use.

Disconnecting the Connection

- To disconnect the device : Go to Settings > Device Reset > OK.
- To disconnect from the app: Go to My VC > Reset Connection, then delete the device from your smartphone's Bluetooth settings.

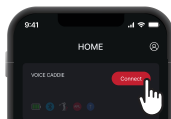

APP Connection

ENG

After turning on the device, Slide left on the main screen to view the app download QR code along with the device's unique number.

- On the app's main screen, press the [Connect] button, then select SL mini from the device list.

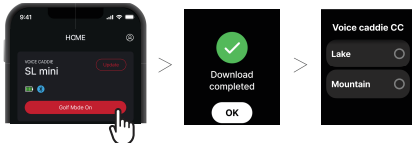

- On the app, select SL mini from the device list screen.
- If the [Update] button appears after connecting, press it to proceed with the firmware update.

Start Golf Mode

Start Golf Mode from the App

- When the app is connected and [Golf Mode On] is selected, the latest golf course information is automatically downloaded.
- Once the download is complete, the Select Course screen appears.
- Golf Mode starts when you select the course you'll play.
- If hole auto recognition is set to [ON], Golf Mode will start automatically after the course is recognized.

Start Golf Mode from the device

- Manual Golf Mode start is only available if the golf course information has been downloaded in advance via the app.
- If the device has golf course data, the [Start Golf Mode] button will appear in the settings.
- Only one golf course can be downloaded to the device at a time.
- Select to playing course to enter Golf Mode.
