Dear Sir or Madam,

We, Ingenico Inc., hereby declare that there are some differences between Moby/5500 CL3 and Moby/5500M CL3 with FCC ID:2ABY6-MOB55CL3. Moby/5500M CL3 without rechargeable battery configuration compares to Moby/5500 CL3 configuration, they share the same PCB, with the same electromagnetic emissions and electromagnetic compatibility characteristics, but removes the related components of the rechargeable battery and has different power supply for NFC module, as well as the corresponding mechanical design of the terminal, as the pictures below:

Please contact me should there be need for any additional clarification or information.

Printed Name: Christopher ROTSAERT

Title: VP of HW Product Management & Supply chain

Thanks& Best regards.
