

Model Name: VIONTA Q5

Product Name: Qi2 Ultra Slim Power Bank

Specification:

Battery Capacity: 5000mAh / 3.87V / 19.35Wh

Input Power:

USB-C: 5V=3A, 9V=2A 12V=1.5A

Output Power:

Wireless: 5W / 7.5W / 10W / 15W

USB-C: 5V = 3A / 9V = 2.22A / 12V = 1.67A

Wireless + USB-C: 5V = 3A, 15W max.

Operating Temperature: 0° C - 35° C

Size: 104 x 67.5 x 8.8mm

Weight: 117g

1 Year Limited Warranty

Made in China

- The product can only be used to charge smartphones / earbuds. Please

refer to the user manual for instructions and more product information.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment for portable condition. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF warning statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used

in portable exposure condition without restriction.

Protective Function:

1. Multiple circuit protection
2. Over-current protection

3. Short-circuit protection
 4. Over-voltage protection
 5. Flame retardant protection
 6. Over-heat protection
-

Attention:

1. Do not expose to liquids
 2. Do not shake while charging
 3. Unplug the device when fully charged
 4. Do not disassemble, puncture, drop, bend or modify
 5. Keep away from children
 6. Avoid extreme temperatures
 7. 1-Year Limited Warranty
 8. Please scan the QR code on the packaging for the user manual
 9. For the fastest and safest charge, use an ADAM cable, your device's original cable or a certified cable (such as MFi)
