Confidentiality Request

De Panne, 2014-05-16

Re.: FCC ID **2ABYPMETRECO** – confidentiality of internal photo's

Dear Sirs,

We would like to alter the confidentiality of the internal photo's attached to the form 731 of our request with FCC ID 2ABYPMETRECO.

As of today, the requested confidentiality is marked as “permanent confidentiality: YES”. We would like to alter this to: “permanent confidentiality: NO” and “short term confidentiality: YES”. We ask the FCC, in reference of both sections of the FCC Rules 0.457(d) and 0.459 as the authority for requesting confidentiality, to grant us short term confidentiality until 2015-01-01.

We would like to have the photo's of our PCBs protected from displaying during the period of review of our request as revealing them could be a serious thread to the market introduction of our product in the USA market. We think that the design and layout of PCBs belong to our Intellectual Property and should be protected at least until end users would have the product at hand.

Sincerely,

Christopher Peirs
Operations Manager
Panimpex NV.
