Privacy Policy

We have implemented everything to protect your personal information. To better understand how we protect your personal information, you can read our "Privacy Policy" in the Setup Wizard when you turn on your phone for the first time. You can check our "Privacy Policy" by following the steps: Settings > About Phone > Legal Information > Privacy Policy.

Safety

Please read all the safety and health information carefully before using your device to ensure its safe and proper operation.

General Safety Information

- Prolonged exposure to the ear-piece may cause harm to your device, property, yourself, or others.
- Do not switch on the device when prohibited or when it may cause interference or danger.
- Do not use device at gas stations, service stations, or near fuel or chemicals.
- Please do not store or carry your medical devices or accessories near liquid or thermal risk gas.
- Please keep away from the phone rear magnetic cards or the magnetic objects, since information stored on floppy discs, memory cards and credit cards could be damaged by magnetic radiation.
- Do not attempt to dry your device or charger in a microwave oven or other high-voltage equipment. Otherwise, it may cause circuit damage, fires, or other damages.
- Like other devices, including mobile phones, might be susceptible to interference, and it may cause interference. Please check the laws and regulations when using your mobile phone, especially in airplanes, hospitals or medical institutions.
- Only use branded accessories and batteries that are approved by OnePlus. Using unapproved accessories may void the warranty, damage the phone or violate local regulations for radio devices. OnePlus shall take any responsibility for accidents or problems caused by using accessories and batteries not approved by OnePlus.
- The device is designed for water resistance under certain conditions, but OnePlus does not recommend excessive submersion. Liquid damage will void the warranty.
- When connecting with other devices, please follow the safety guidelines presented in this manual. Do not attempt to connect your device with incompatible products.
- Please do not use the phone if someone is damaged. Otherwise, it may cause injury.
- Please keep metal objects away from phone receiver. Small metal objects may be attracted to the device and personal injury or device damage may occur.
- Only connect to power sources with USB 2.0 or above.

Battery Safety

- Please do not attempt to repair, disassemble or modify the battery. Replacing battery by an incorrect type could lead to explosion. Your phone should use OnePlus authorized batteries. Using third-party products may cause battery leakage, overheating or fires.
- Do not put the battery near heat sources, heaters, direct sunlight, or other heat sources. Prolonged exposure to heat may cause battery leakage, explosions, or fires.
- Do not put the battery, or the phone powered by the battery with burst objects. Damaging the battery could cause battery leakage, overheating, or fires.
- If you experience any battery abnormalities, such as high temperature, deformation, discoloration, or leakage, please immediately discontinue usage of the device and contact customer support.
- All batteries have a limited lifespan and will begin to lose capacity after several hundred charges/discharges.
- Keep the lifespan of the battery as focused Avoids: Refer to the Manual.

Charging Safety

- The charger is intended for indoor use only.
- Do not charge the battery under the following conditions:
In direct sunlight, in temperatures below 5°C, in areas with humidity, dust or vibration, in areas near TV sets or radio receivers, or for fuel purposes.
- The charger and the cable must be in near the equipment and shall be easily accessible.
- Ensure the ambient charging temperature of the equipment declined by manufacturer is 41°C.
- Sockets that are dirty may cause poor contact with the charger, and your device may not charge properly.
- Please unplug your the official OnePlus chargers (using unauthorized chargers can be dangerous and can void your warranty).
- Make sure to unplug devices with the correct configuration listed on the charging block, and not incorrect voltage can damage your phone.
- Do not use a damaged charger.
- Do not use a short-circuit charger.
- Do not use a phone with charger in a high-voltage power supply or the battery could become damaged.
- Do not disassemble your modify charger, as this may lead to personal injury, fire or electrocution.
- Do not touch the charger, cable or power socket with wet hands, as this may cause electric shock.
- Do not allow heavy objects on the power cord or attempt to modify any cables.
- Make sure to grasp the charger firmly while unplugging it.
- Do not pull the power cord as this may lead to damage and cause electric shock or fire.
- Before cleaning the device, unplug the power plug from the socket.
- Unplug the charger from electrical outlets and the device when not in use.

Driving Safety

- Safety should take priority when you are operating a vehicle. Be sure to check the laws and regulations on the use of mobile devices.
- Do not allow your phone or accessories raise safety at risk.
- Compass and GPS information are only used for reference purposes. If you do not wish to disclose your location, be sure not to use applications that can record your location.

Health Information

To prevent possible hearing damage, do not listen at high volume levels for long periods.

- Exposure to high volume sound may cause damage of the pupil. It is best to keep a reasonable volume by your ears or device. Immediately rinse your eyes (do not rub) or wash skin with water thoroughly and seek medical attention.
- Some people may get dizzy or experience medical problems in response to flashing lights or patterns. Please consult a doctor before using this device. If you have the following symptoms: headaches, dizziness, convulsions, eyes or muscle cramps, loss of consciousness, or involuntary movements, please stop using the device immediately and consult with a medical attention. Avoid using the device for extended periods and keep proper distance from your eyes.

Laser Safety Statement

If this product supports the laser autofocus feature. To ensure proper use of this product, please read this owner's manual carefully and retain for future reference. Should the unit require maintenance, contact an authorized service location. Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure. To prevent direct exposure to laser beam, do not try to open the enclosure or make direct contact with the laser.

CLASS 1 LASER PRODUCT

EU Regulatory Conformance

CE Statement

Hereby, OnePlus Technology (Shenzhen) Co., Ltd. declares that the radio equipment type Smart Phone is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity (DoC) is available at the following internet address:
https://www.oneplus.com/support/manuals

Notice: Observe the national laws and regulations in the location where the device is used. This device may be restricted for use in some or all member states of the European Union (EU).

RF Exposure Information (SAR)

- The SAR limit of Europe is 2.0W/kg. The highest SAR value of this device can be with this limit. And please see the "Quick Start Guide" to find the highest SAR value.
- This device was tested for typical operation with the back of the handset kept 5mm from the body. To maintain compliance with RF exposure requirements, use accessories that maintain a 5mm separation distance between the user and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided.
- Body-worn operation: This device was tested for typical body-worn operations with the back of the handset kept 5mm from the user's body. To comply with RF exposure requirements, a minimum separation distance of 5mm must be maintained between the user's body and the back of the handset. For more information about RF exposure, visit the FCC website at www.fcc.gov
- Limb worn operation: This device was tested for typical limb-worn operations with the back of the handset kept 5mm from the user's limbs. To comply with RF exposure requirements, a minimum separation distance of 5mm must be maintained between the user's limbs and the back of the handset. For more information about RF exposure, visit the FCC website at www.fcc.gov
- Head operation: This device was tested for typical head-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's head and the device. For more information about RF exposure, visit the FCC website at www.fcc.gov
- Carry operation: This device was tested for typical carry operations with the back of the handset kept 5mm from the user's body. To maintain compliance with RF exposure requirements, use accessories that maintain a 5mm separation distance between the user and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided.
- Cases with metal parts may change the RF performance of the device, including the compliance with RF exposure guidelines in the manner tested and certified, and use such accessories should be avoided.

Conformément à la réglementation française, vous pouvez consulter ci-dessous les mesures maximales relatives à l'exposition aux champs de radiofréquence pour chaque bande de fréquence.

Comment éviter votre exposition à votre téléphone mobile ?

Le DAS (débit d'absorption spécifique) mobile décrit le niveau maximal auquel il est autorisé à émettre.

Le DAS d'un kit mains libres pour maintenir votre appareil à mains libres doit être inférieur à 0,5 watts.

Dans le domicile, les bureaux et les entreprises, il est recommandé d'utiliser un kit mains libres ou un casque avec microphone pour éloigner votre appareil mobile de votre corps.

Restrictions in 5GHz band

The device is restricted to indoor use only when operating in the 5150 to 5350MHz frequency range.

	AT	BE	BG	CH	CY	CZ	DE	DK	EE	EL	ES
	FI	FR	HR	HU	IE	IS	IT	LI	LT	LU	LV
	MT	NL	NO	PL	PT	RO	SE	SI	SK	TR	UK

Frequency bands in which the radio equipment operates:
Some bands may not be available in all countries or all areas. Please contact the local carrier for more details.
Maximum radio-frequency power transmitted in the frequency bands in which the radio equipment operates: The highest SAR value of this device is the highest limit value specified in the related harmonised standard.
Please see the "Quick Start Guide" to find the frequency bands and licensed frequency.

Correct Disposal of this Product

This user manual contains important safety information. Please read carefully before using the device and retain for future reference.

Version: 6.0

device type complies with this limit. And please see the "Quick Start Guide" to find the highest SAR value reported to FCC.
- Tests for SAR are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands.
- Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.
- While there may be differences between the SAR levels of various devices and various positions, they all meet the government requirement.
- The device has also been tested and meets the FCC RF exposure guidelines when used with an accessory that contains no metal and positions the handset a minimum of 10mm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Any accessory that contains metal and places the handset closer than 10mm from your body when the device is switched on.
- Choose the belt clips, holsters, or other similar body-worn accessories that contain no metallic components in its assembly to maintain a separation distance of 10mm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device at the ear, position the handset a minimum of 10mm from your body when the device is switched on.

Déclaration d'exposition aux radiations:
Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les États-Unis et le Canada établies pour un environnement non contrôlé. Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps d'un utilisateur ou si le dispositif est réglé sur la puissance de sortie la plus faible si une fonction est disponible. Cet équipement est conforme aux limites d'exposition aux rayonnements FCC établies pour un environnement incontrôlé. Cet équipement doit être installé et utilisé avec un minimum de 5 mm de distance entre la source de rayonnem.

India Regulatory Conformance

Sweetalk information

Designed & manufactured by OnePlus (Shenzhen) with the Sweetalk App. Do not use in conjunction. Considering the sweetest listed in BIS CRS ULE of the Deserte rules, the content of hazardous substances is as follows:
1. Lead (Pb) ≤ 0.1 wt % by weight.
2. Cadmium (Cd) ≤ 0.01 wt % by weight.
3. Mercury (Hg) ≤ 0.1 wt % by weight.
4. Hexavalent chromium (Cr6+) ≤ 0.1 wt % by weight.
5. Polybrominated biphenyls (PBB) ≤ 0.1 wt % by weight.
6. Polybrominated diphenyl ethers (PBDE) ≤ 0.1 wt % by weight.

For the purpose of recycling and reducing the effect of the environment, the Electrical & Electronic Equipment should not be disposed of with other household waste. Please dispose of your device at the designated collection point and recycle them in the authorized sweetie company. As a part of Sweetie recycling initiative, OnePlus has partnered with an authorized Sweetie collection facility in your area. For more information about OnePlus Sweetie product, for further information about the OnePlus Sweetie partner named AS Ahemi, you can contact at:
